# Color Your Own Memory Game

Make memory more interactive for young children by coloring one set to match the other and then playing.

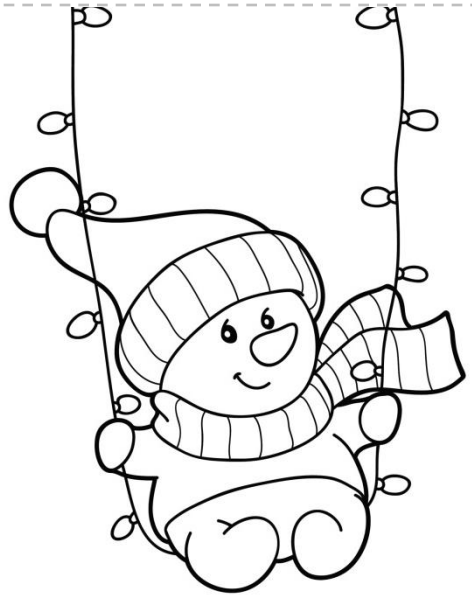

Print out the pages, on cardstock if possible.

Color the blank set to match the colored set. If your child enjoys coloring, let him/her do it! If your child does not enjoy coloring, do it together, focusing more on fun time together rather than forcing your child to color.

Once all cards are colored, laminate and cut out to play memory!
