Cut out the number line and the characters. Use a character to cover up a number and have your child practice figuring out the hidden number. Use words such as “what number is before, after, or in between” to help learn math vocabulary!

Use the following page for more practice, cut the lines into strips if you want to, or leave the page whole.

Which number is hidden?

Print this page and cut out the rectangles and the alligator squares. Laminate is possible. Use the floor or a pocket chart to choose 2 amounts and have your child put the correct "alligator" for less than or more than in between the amounts!

What did Jake find?

How many did Jake find?

Use this page to help your child with identifying coins! Leave the page whole or cut them into cards, use real coins to match/sort too!

Match the Coins

Gather 4 of each type of coin and introduce the values and sizes of each coin.
Leave the page whole or cut them into cards, having your child sort the coins!
