

Hi! Thank you for visiting 1+1+1=1 and finding a resource you'd like to use! Please feel free to use these files for your own personal use. I provide them free of charge to bless others!

If you want to share, you may share these forms with others by sharing a link to my blog or to the page that hosts these files. Please do not link directly to just the PDF files (the link you are at now).

It is my prayer that others are blessed through my blog and any files I share!!!

~If you ever notice a typo, please let me know, a few slip by me now and then and I certainly want to fix them!

God Bless,

Carisa

Be sure to download the [BABY ANIMALS MATCHING](#) printables too!

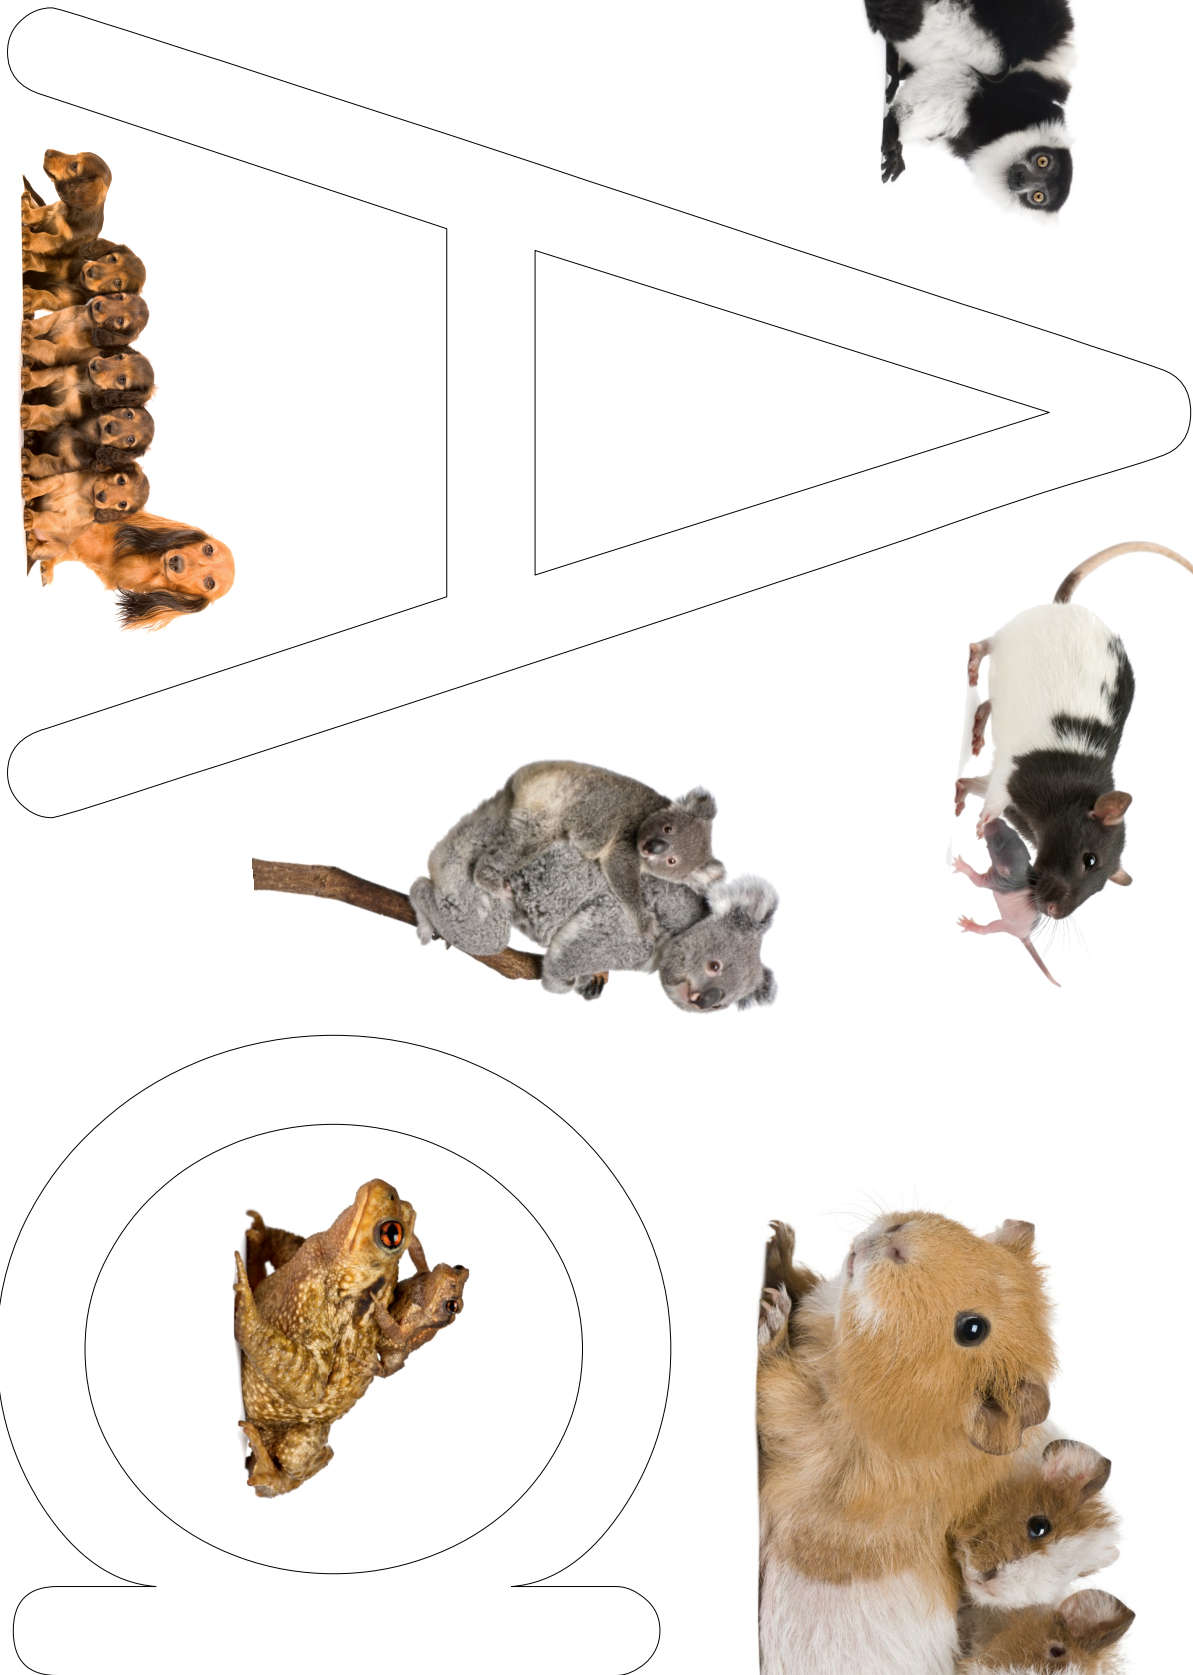

Follow Along with US...

This is PART ONE only,
be sure to download
PART TWO also!

They are not divided
any special, just in half
for file size!

Aa is for animals

Print and cut apart puzzle pieces. Leave the numbers on so your child can practice numbering from 1-10 or cut them off and let him have fun figuring out the puzzle!

3 Part Cards

3 part cards are also called Nomenclature cards. You can see specific instructions for using them [here on the Montessori Print Shop site](#) (scroll to the bottom to see the PDF download for 3 Part Cards).

Here is how we use them, with our [mini pocket chart](#)...

You can find more Nomenclature printables on my [Montessori Printables](#) webpage!

Cut out the dice template below, fold on the dotted lines and tape/glue together to make dice. Have your child roll the dice and then fill in a square of the graphic that was rolled until one of the colors reaches 10!

Use a spinner as an alternate to the cube if desired. I print mine on cardstock and laminate. Use a metal brad to poke a hole {you may need a scissors or knife to break through at first if laminated}. You can try to use the arrow, possibly with a bead/washer to help it spin. I prefer to rig up a paperclip hooked to a metal brad as the actual spinner. You just have to play around with it to see what will work for you!
