

Hi! Thank you for visiting [1+1+1=1](http://www.1plus1plus1equals1.com) and finding a resource you'd like to use! Please feel free to use these files for your own personal use. I provide them free of charge to bless others!

If you want to share, you may share these forms with others by sharing a link to my blog or to the page that hosts these files. Please do not link directly to just the PDF files (the link you are at now).

It is my prayer that others are blessed through my blog and any files I share!!!

~If you ever notice a typo, please let me know, a few slip by me now and then and I certainly want to fix them!

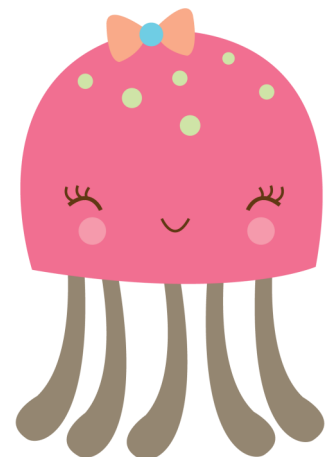

God Bless,

Carisa

- [Webpage for this Preschool Pack](#)
- [Ocean Books](#)

This Preschool Pack was created 6/2011
Clipart is from [Stockberry Studio](#)

is for Ocean

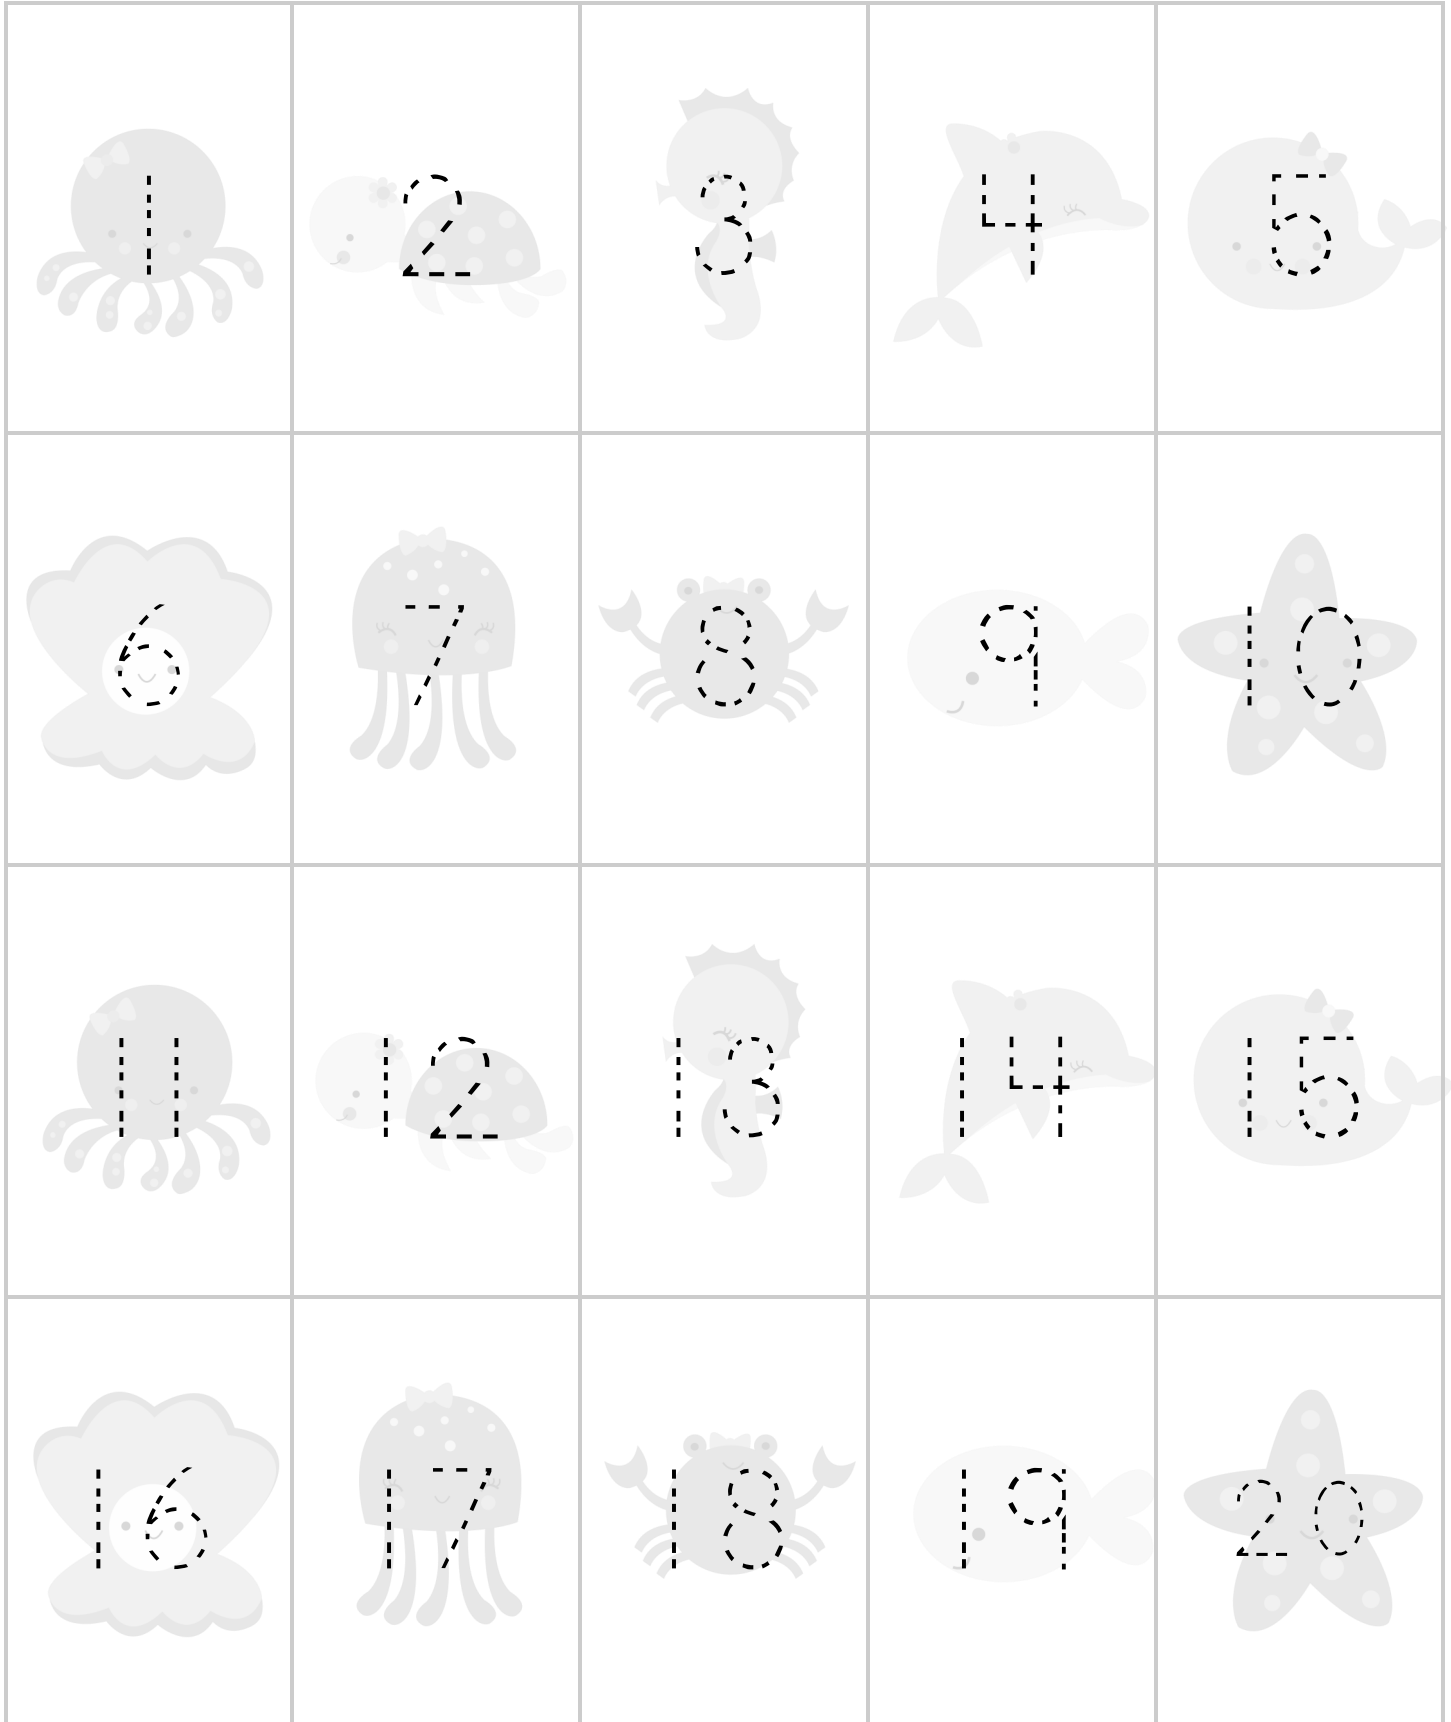

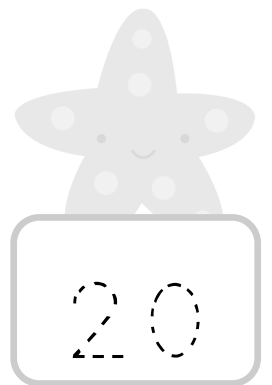

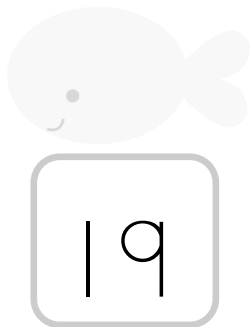

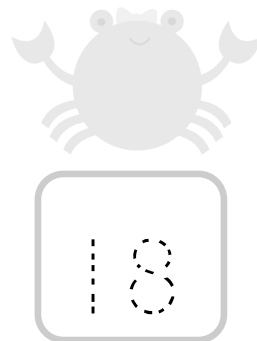

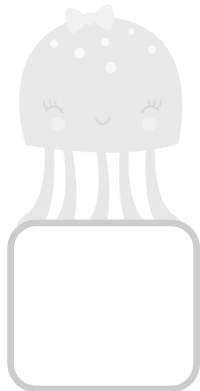

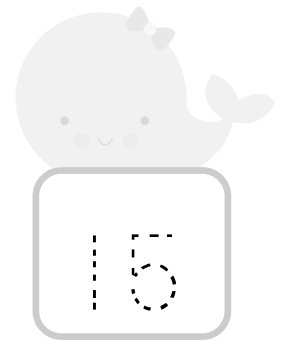

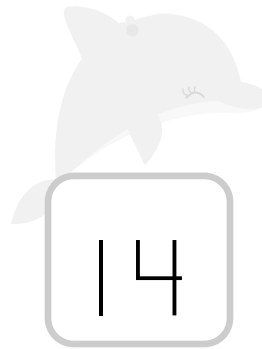

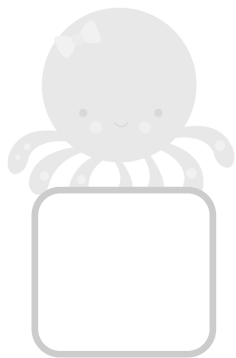

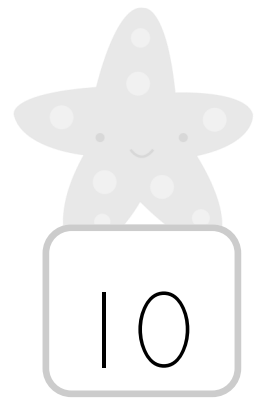

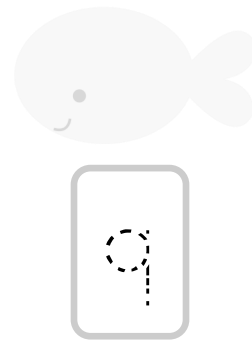

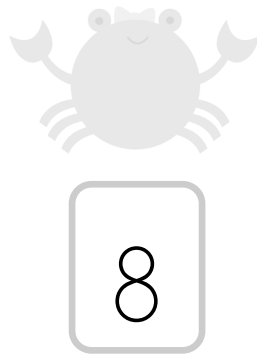

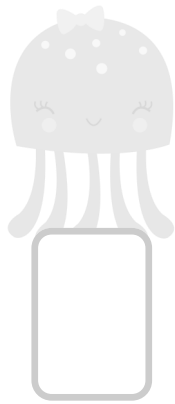

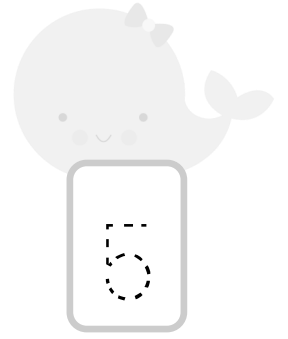

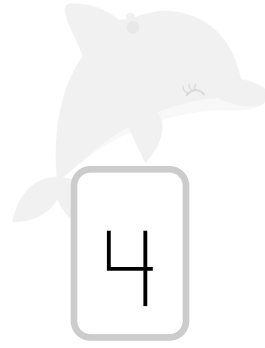

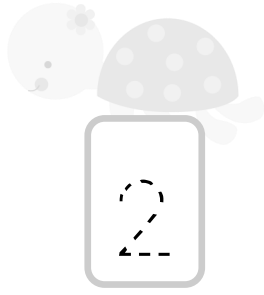

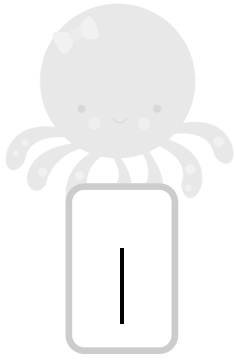

Use the next 2 pages to work on identifying and writing numbers up to 20. You could print 2 of each or one of each to "play" with. Here are a few ideas for play:

- Give your child a number and have him count up to that number and write it.
- Ask your child to find the # _____
- Say "I am thinking of a number that has a 1 and a 2 in it, can you find it? (12)
- Challenge your child to find 20 small objects to put on each box.
- Simply have your child write the missing numbers on the 2nd sheet, and trace the numbers that need to be traced. On the 1st sheet just simply practice tracing.

I offered two options for # work up to 20 just pick the sheet you prefer for your child!

You can see another [Ocean Themed Counting 1-20](#) board here.

3 Part Cards

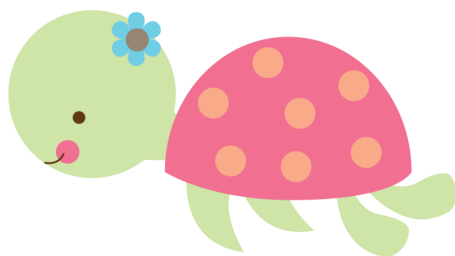

3 part cards are also called Nomenclature cards. You can see specific instructions for using them [here on the Montessori Print Shop site](#) (scroll to the bottom to see the PDF download for 3 Part Cards).

Here is how we use them, with our [mini pocket chart](#)...

Cut out the dice template below, fold on the dotted lines and tape/glue together to make dice. Have your child roll the dice and then fill in a square of the graphic that was rolled until one of the colors reaches 10! If your child is younger or you want a shorter game, use the 1-5 page!

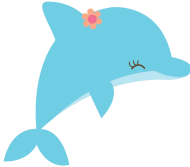

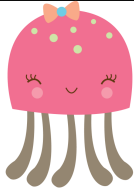

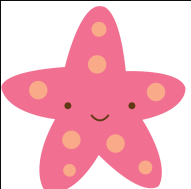

Use a spinner as an alternate to the cube if desired. I print mine on cardstock and laminate. Use a metal brad to poke a hole {you may need a scissors or knife to break through at first if laminated}. You can try to use the arrow, possibly with a bead/washer to help it spin. I prefer to rig up a paperclip hooked to a metal brad as the actual spinner. You just have to play around with it to see what will work for you!

Help the sea creatures get home to the ocean!

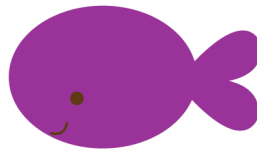

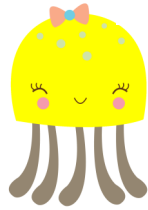

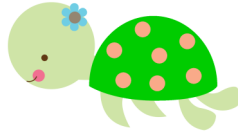

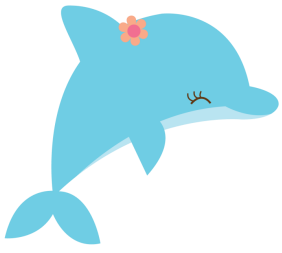

Cut out and tape together the two strips to make 1 long patterning board. Use the images on the previous to work on different patterns with your child!

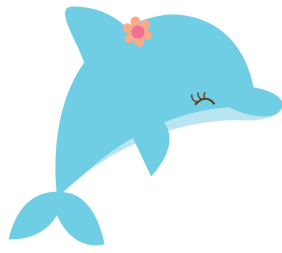

Color Matching

Use the cards on the next page to play a matching game and also to work on color words!
Have your child find the color in each image before playing a memory game!

In the Ocean

staple here

A dolphin lives in the ocean.

A fish lives in the ocean.

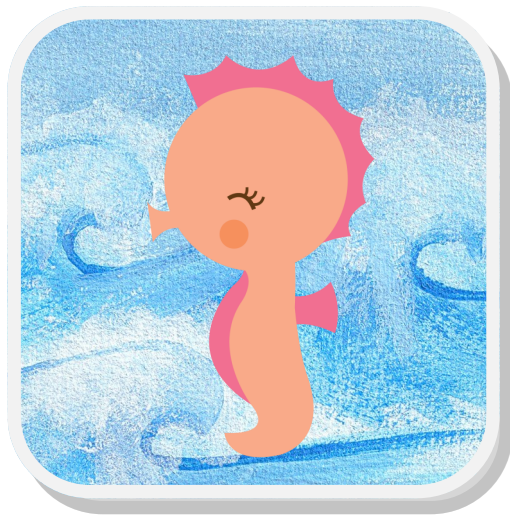

An octopus lives in the ocean.

A jellyfish lives in the ocean.

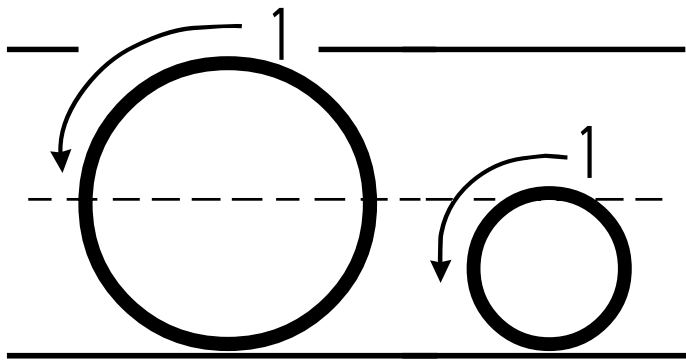

A whale lives in the ocean.

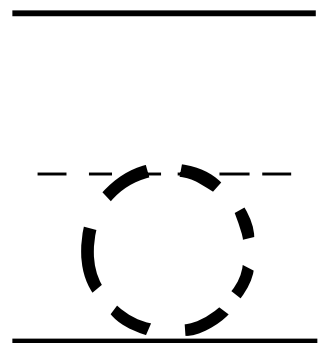

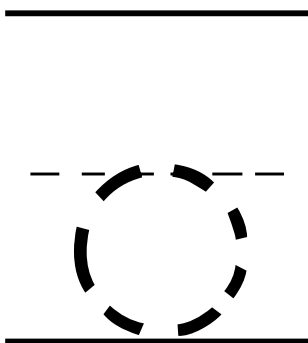

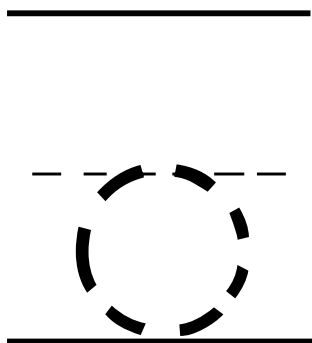

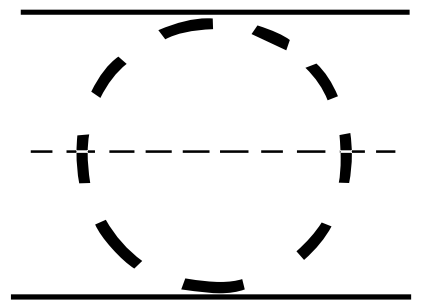

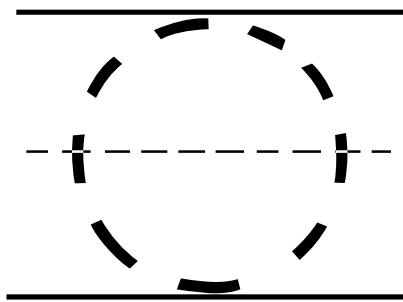

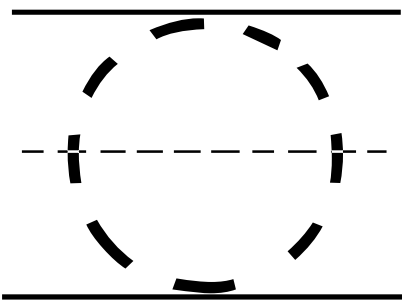

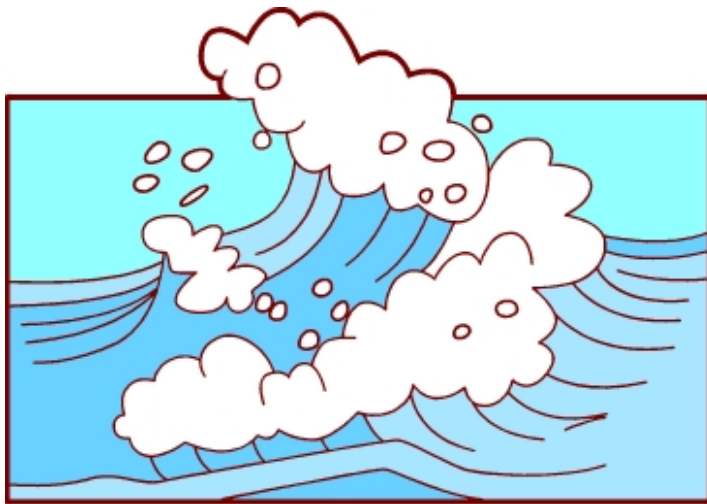

A sea horse lives in the ocean.

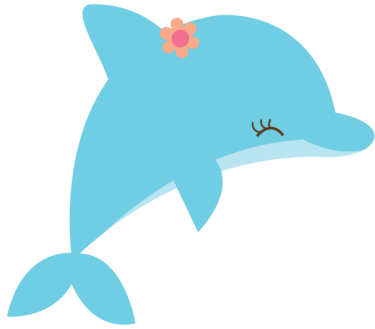

A sea star lives in the ocean.

is for
ocean

Print, laminate and cut out or slide into a sheet protector. Have your child either clip a clothespin to the correct beginning letter sound or use a dry erase marker to circle the correct beginning sound.

Can you find these words in the story?

once

there

was

a

and

who

in

the

had

friend

an

to

all

day

swim

together

good

they

were

loved

dolphin

octopus

ocean

swimming

Once there was a dolphin who was

swimming in the ocean. The dolphin

had a friend who was an octopus.

The dolphin and the octopus loved to

swim all day in the ocean together.

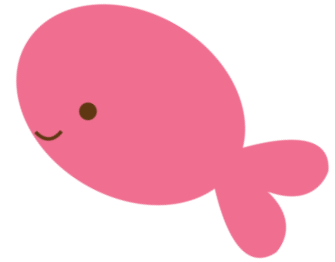

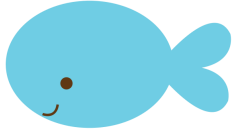

They were good friends!

Which one is different?

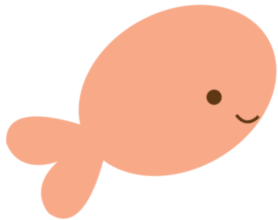

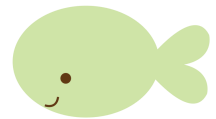

I'm a Little Fishy

I'm a little fishy,
watch me swim

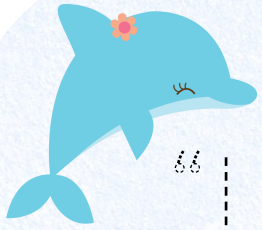

Here is my tail,
Here is my fin

When I want to have fun
with my friends,

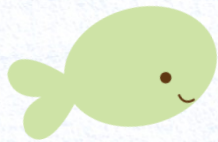

I wiggle my tail
and dive right in!

And God said,

Let the waters
under the heavens
be gathered
together into one

place,

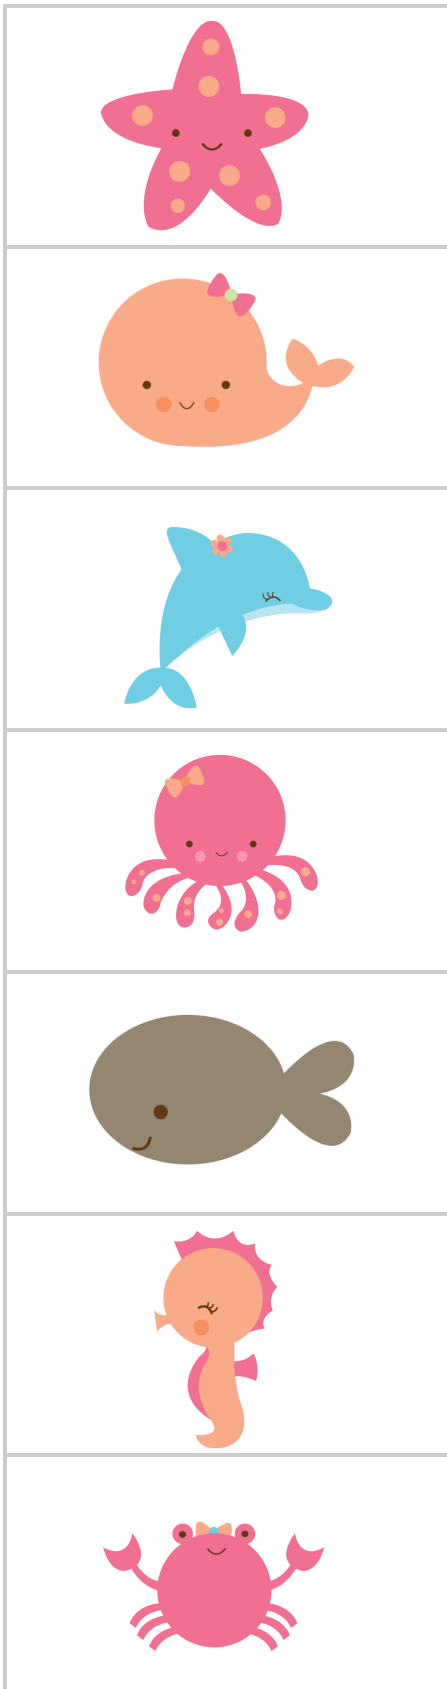

and let the dry land appear.”

And it was so.

Word Matching

Cut out and match, or simply draw lines to match the correct words.

dolphin

sea star

fish

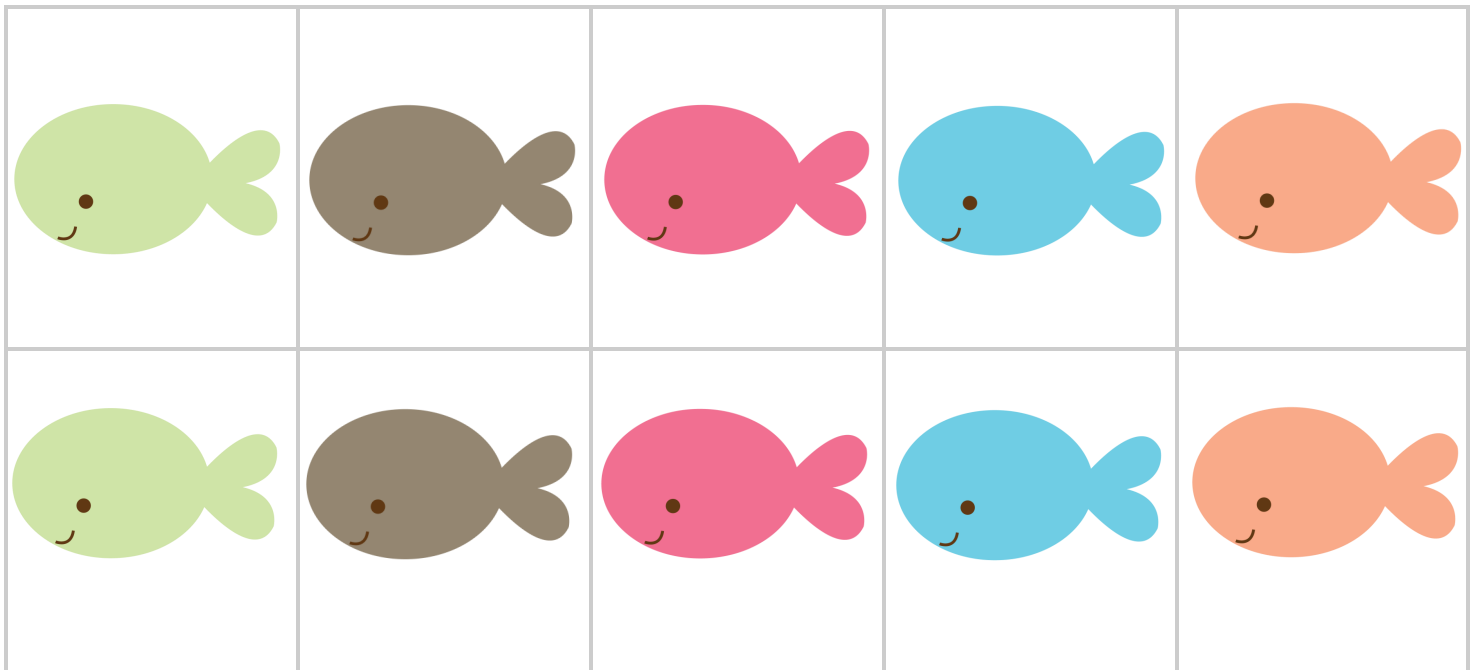

sea horse

whale

crab

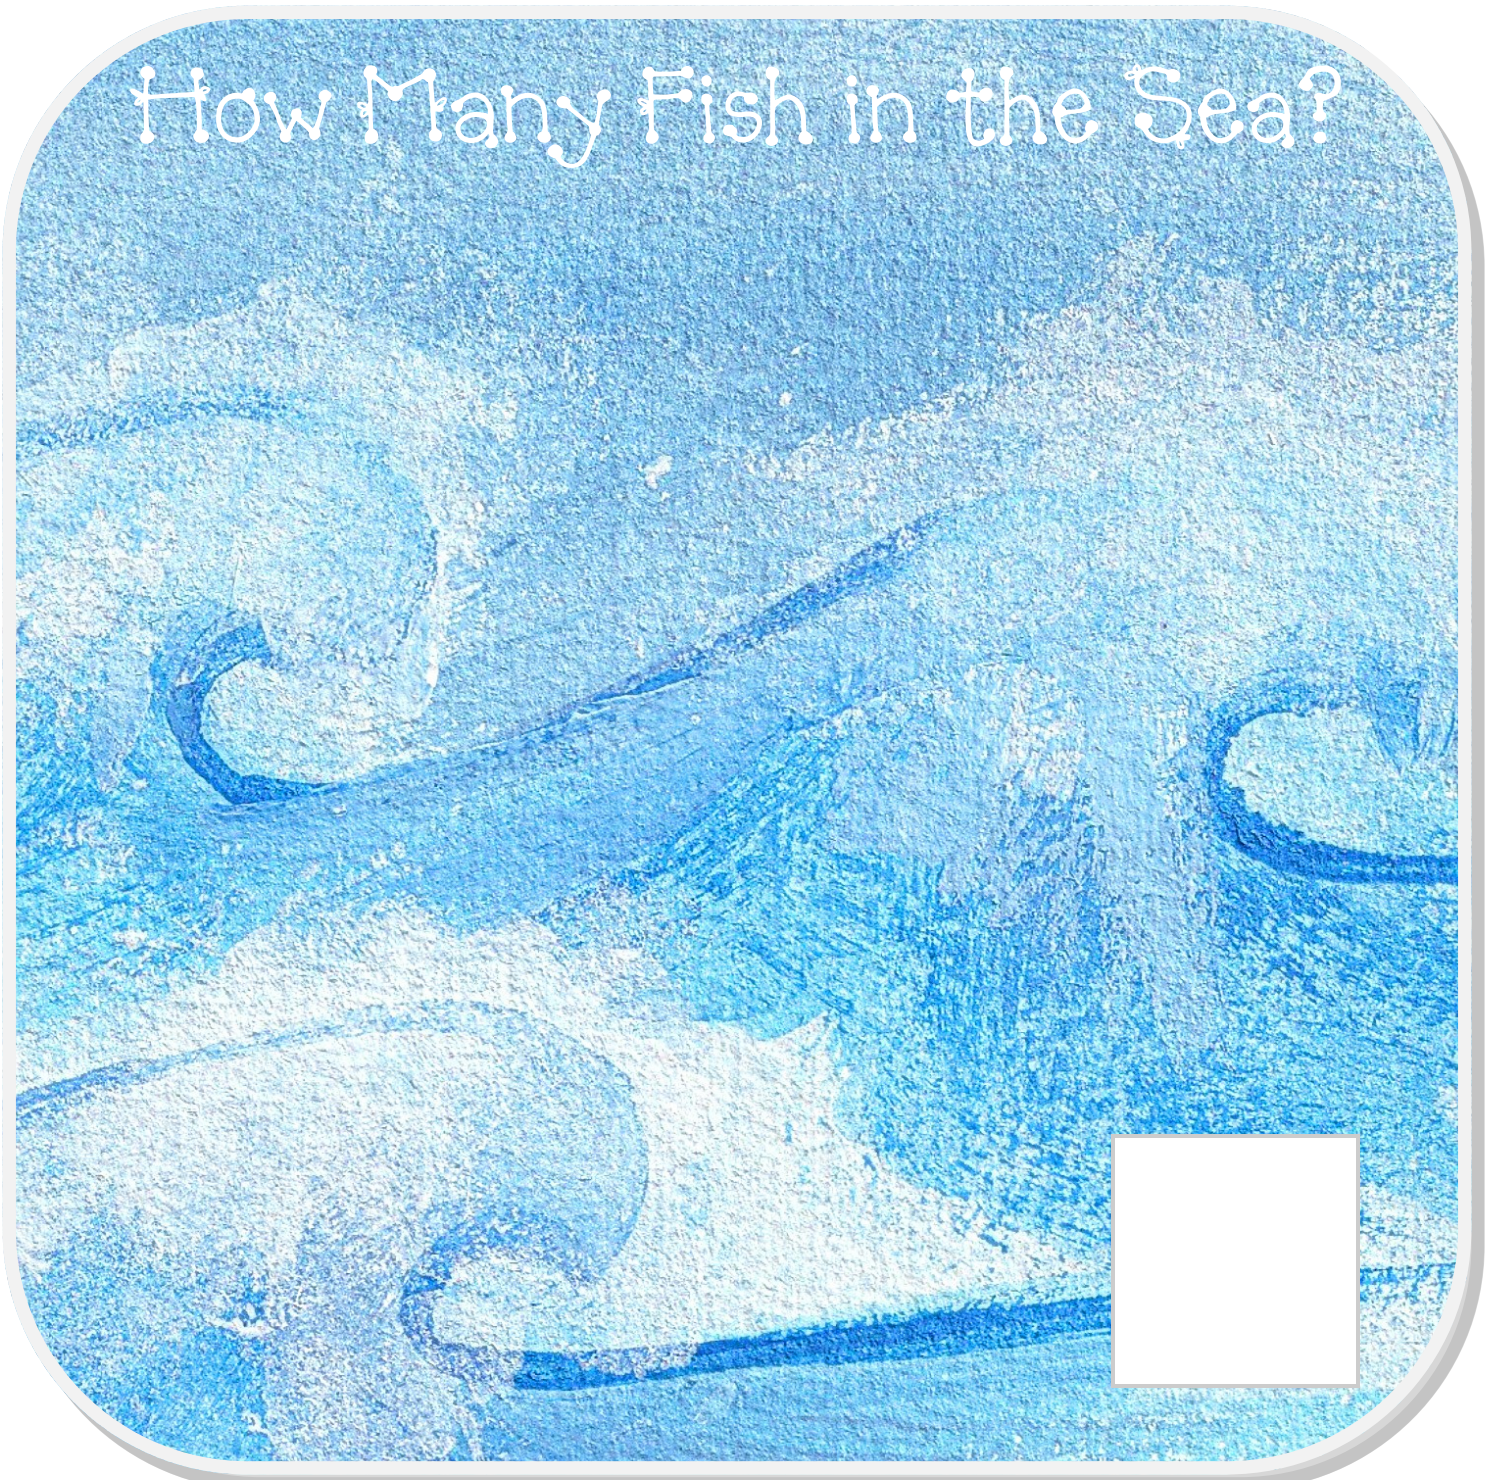

octopus

1	2	3	4	5
6	7	8	9	10

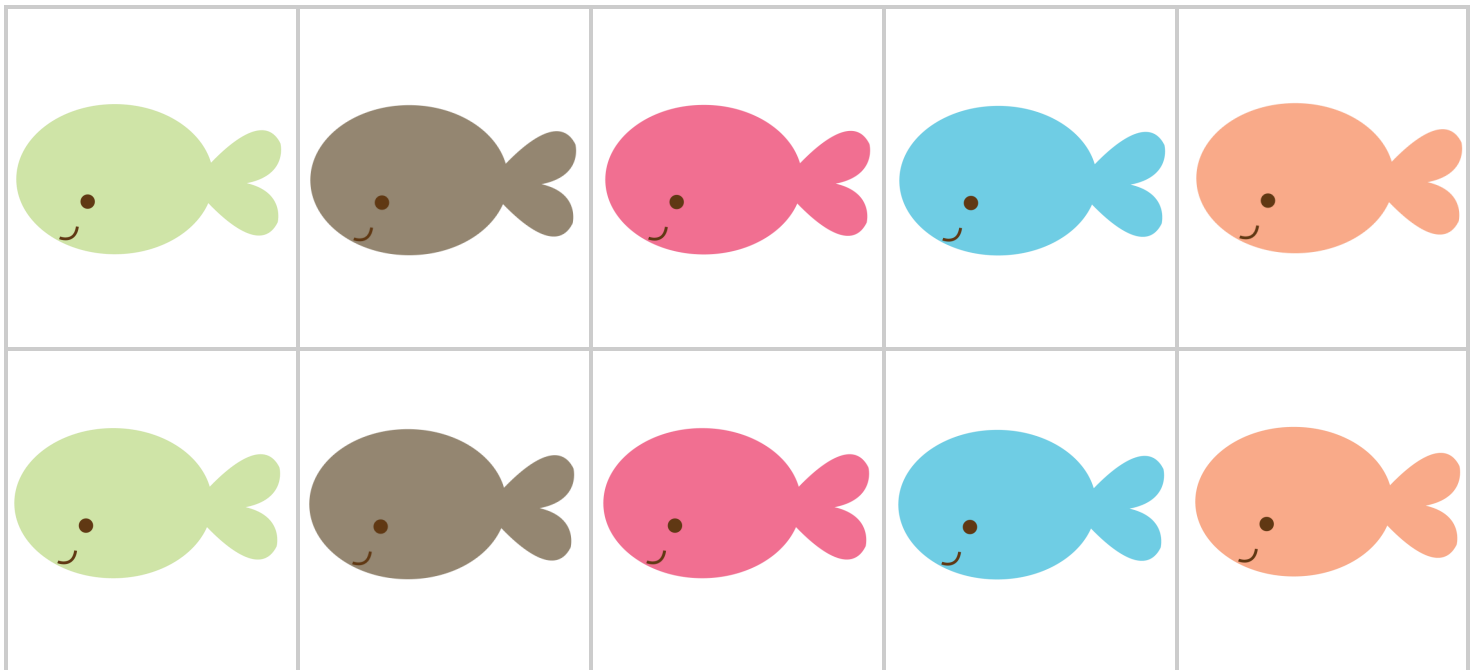

Print this page on cardstock and cut out fish and numbers. Use the next page (ocean) to have your child practice counting. You can give him a # and ask him to identify the # and place that # of fish in the ocean. Or you can put fish in the ocean and have your child count them and find the correct number. Be sure to let your child quiz you also!!

How Many Fish in the Sea?

11	12	13	14	15
16	17	18	19	20

This page is to use if your child is counting higher than 10 and practicing basic addition. I included an addition board to use also! Print the other sheet of fish and numbers to have a complete set to work with!

How Many Fish in the Sea?

Read & Write the House...

Print the image/word cards and cut apart.

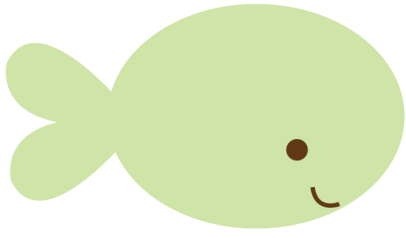

Tape these around the schoolroom or school area in your home.

Give your child a clipboard, and a pencil and have him/her go around and find the words and record them on either the tracing sheet (younger kids) or on the blank lines (older kids).

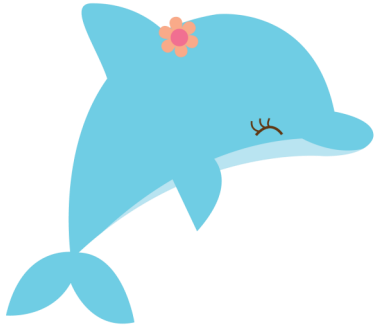

See more [Ocean Themed Read & Write the Room](#) cards here!

For fun, allow your child to use funny glasses, a [fun word pointer](#), and a special pen or pencil! You could even slip the recording sheet into the [Crayola Dry Erase Center](#) and have your child use that to write on with a dry erase marker!
