

Hi! Thank you for visiting [1+1+1=1](http://www.1plus1plus1equals1.com) and finding a resource you'd like to use! Please feel free to use these files for your own personal use. I provide them free of charge to bless others!

If you want to share, you may share these forms with others by sharing a link to my blog or to the page that hosts these files. Please do not link directly to just the PDF files (the link you are at now).

It is my prayer that others are blessed through my blog and any files I share!!!

~If you ever notice a typo, please let me know, a few slip by me now and then and I certainly want to fix them!

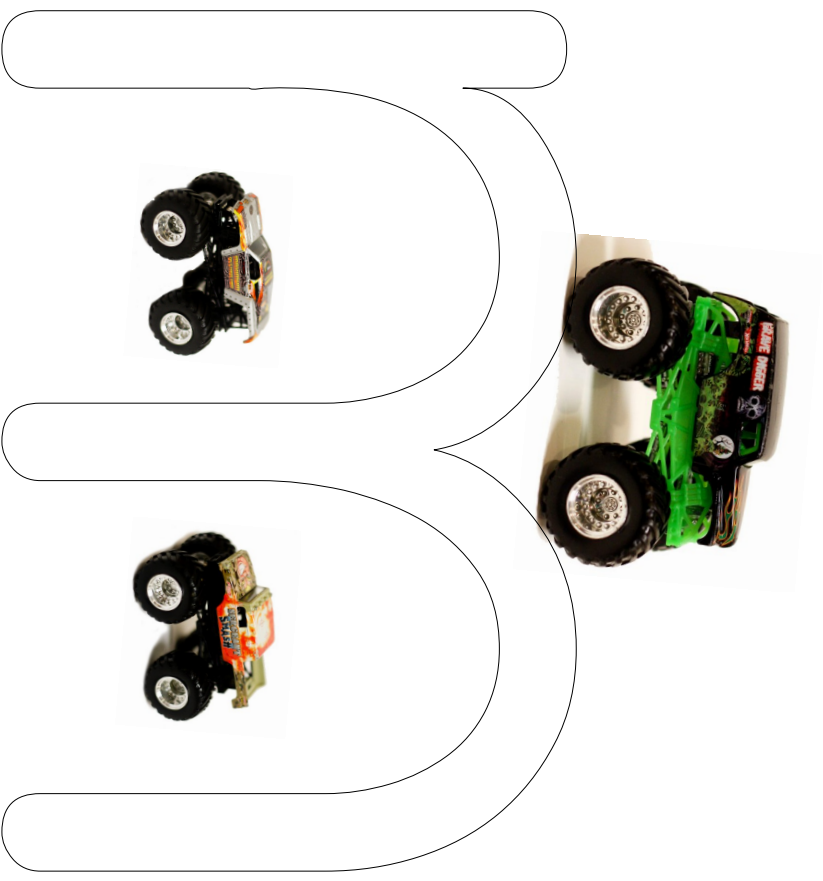

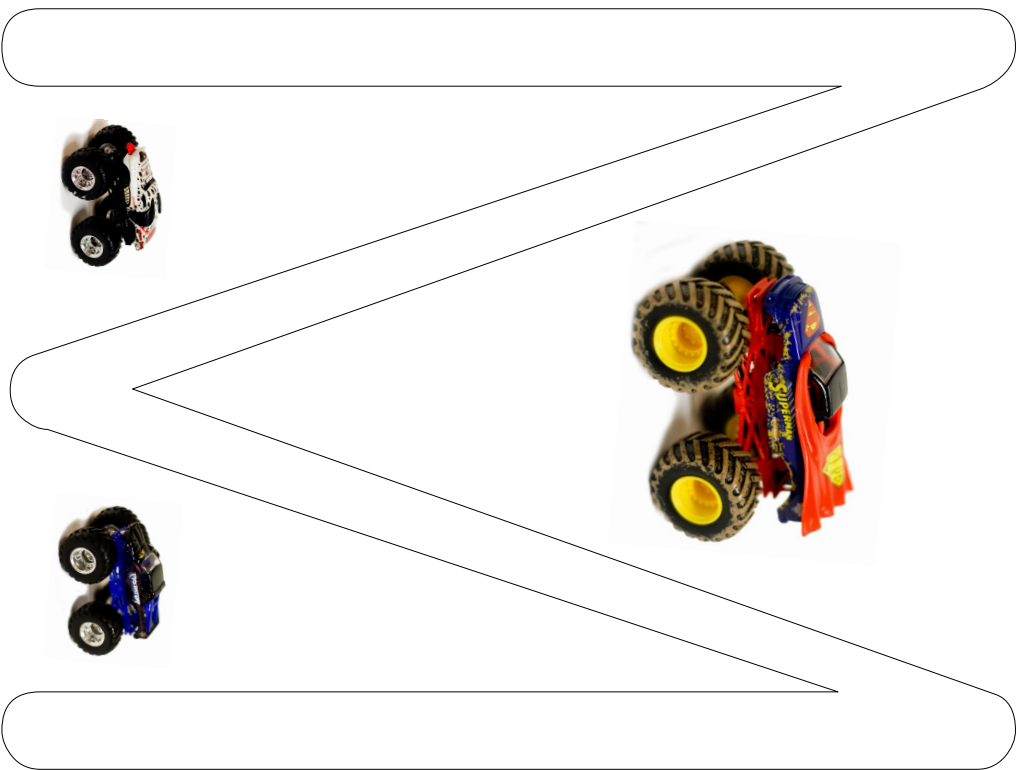

God Bless,

Carisa

is for Monster Trucks

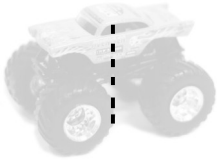

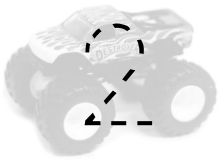

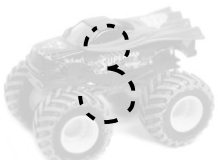

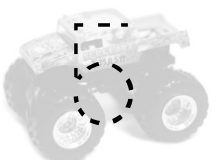

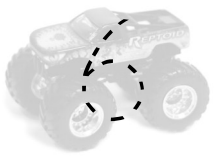

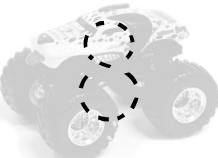

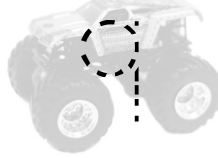

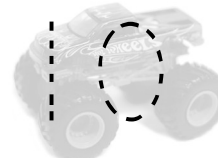

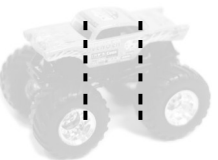

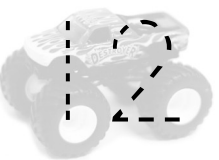

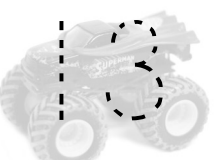

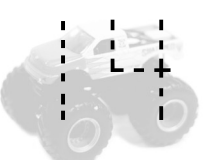

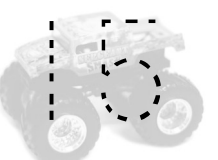

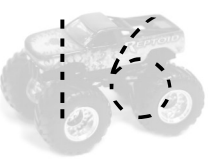

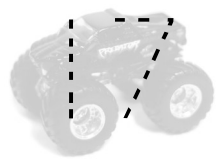

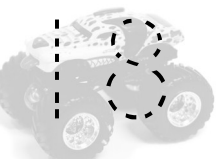

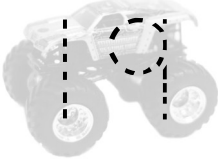

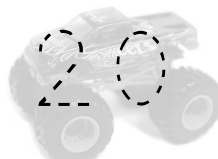

Print and cut apart puzzle pieces. Leave the numbers on so your child can practice numbering from 1-10 or cut them off and let him have fun figuring out the puzzle!

		1

		3
		4
		5
		6
		7
		8
		9
		10

Use the next 2 pages to work on identifying and writing numbers up to 20. You could print 2 of each or one of each to "play" with. Here are a few ideas for play:

- Give your child a number and have him count up to that number and write it.
- Ask your child to find the # _____
- Say "I am thinking of a number that has a 1 and a 2 in it, can you find it? (12)
- Challenge your child to find 20 small objects to put on each box.
- Simply have your child write the missing numbers on the 2nd sheet, and trace the numbers that need to be traced. On the 1st sheet just simply practice tracing.

I offered two options for # work up to 20 just pick the sheet you prefer for your child!

3 Part Cards

3 part cards are also called Nomenclature cards. You can see specific instructions for using them [here on the Montessori Print Shop site](#) (scroll to the bottom to see the PDF download for 3 Part Cards).

Here is how we use them, with our [mini pocket chart](#)...

Grave Digger

Avenger

Maximum Destruction

Blue Thunder

Brutus

Destroyer

Superman

Hot Wheels

Monster Mutt

Destroyer

Superman

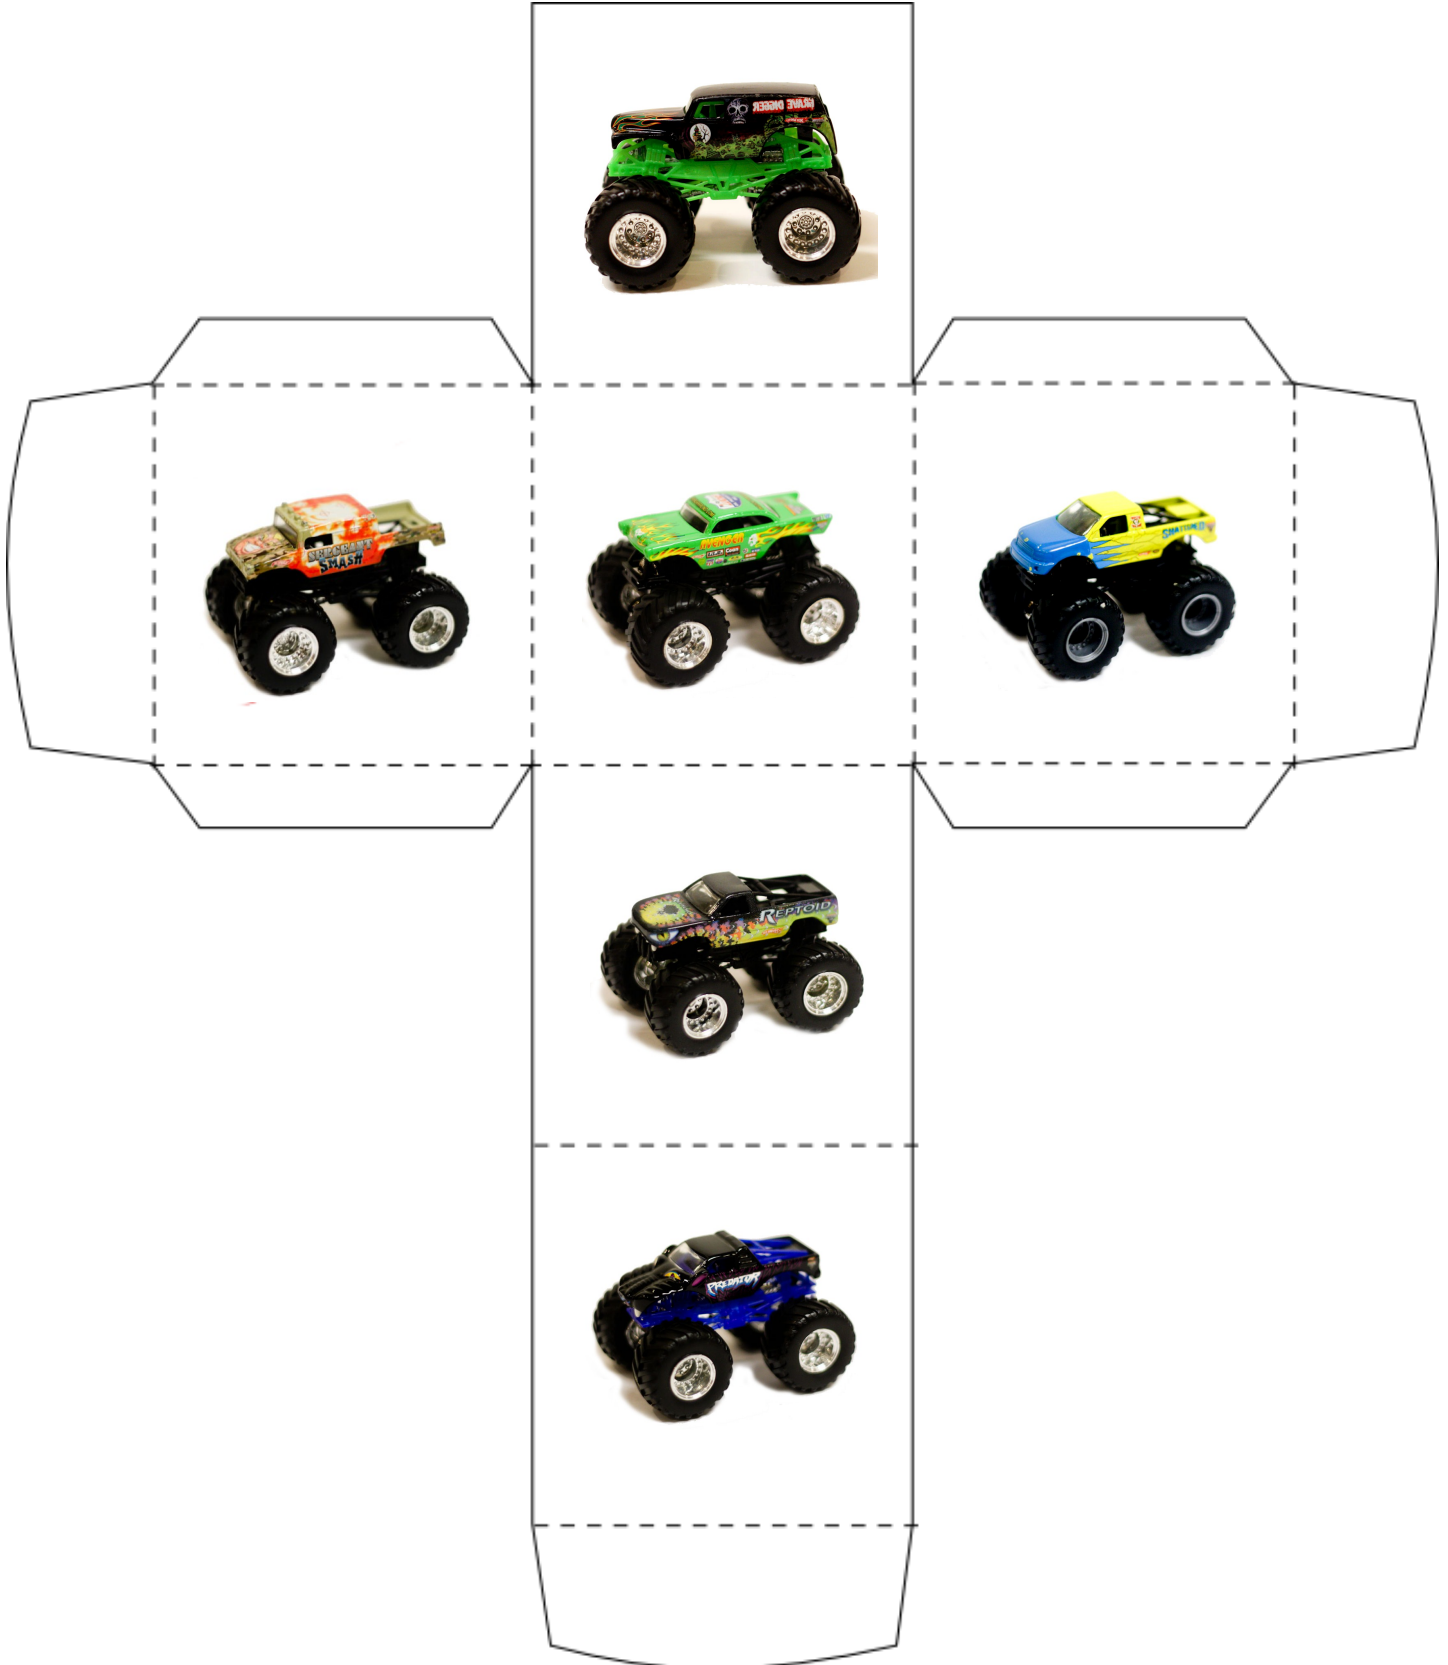

Hot Wheels

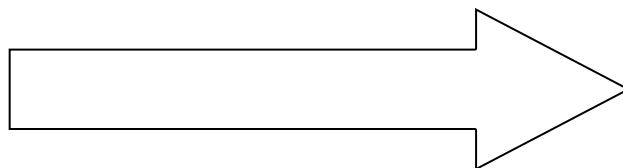

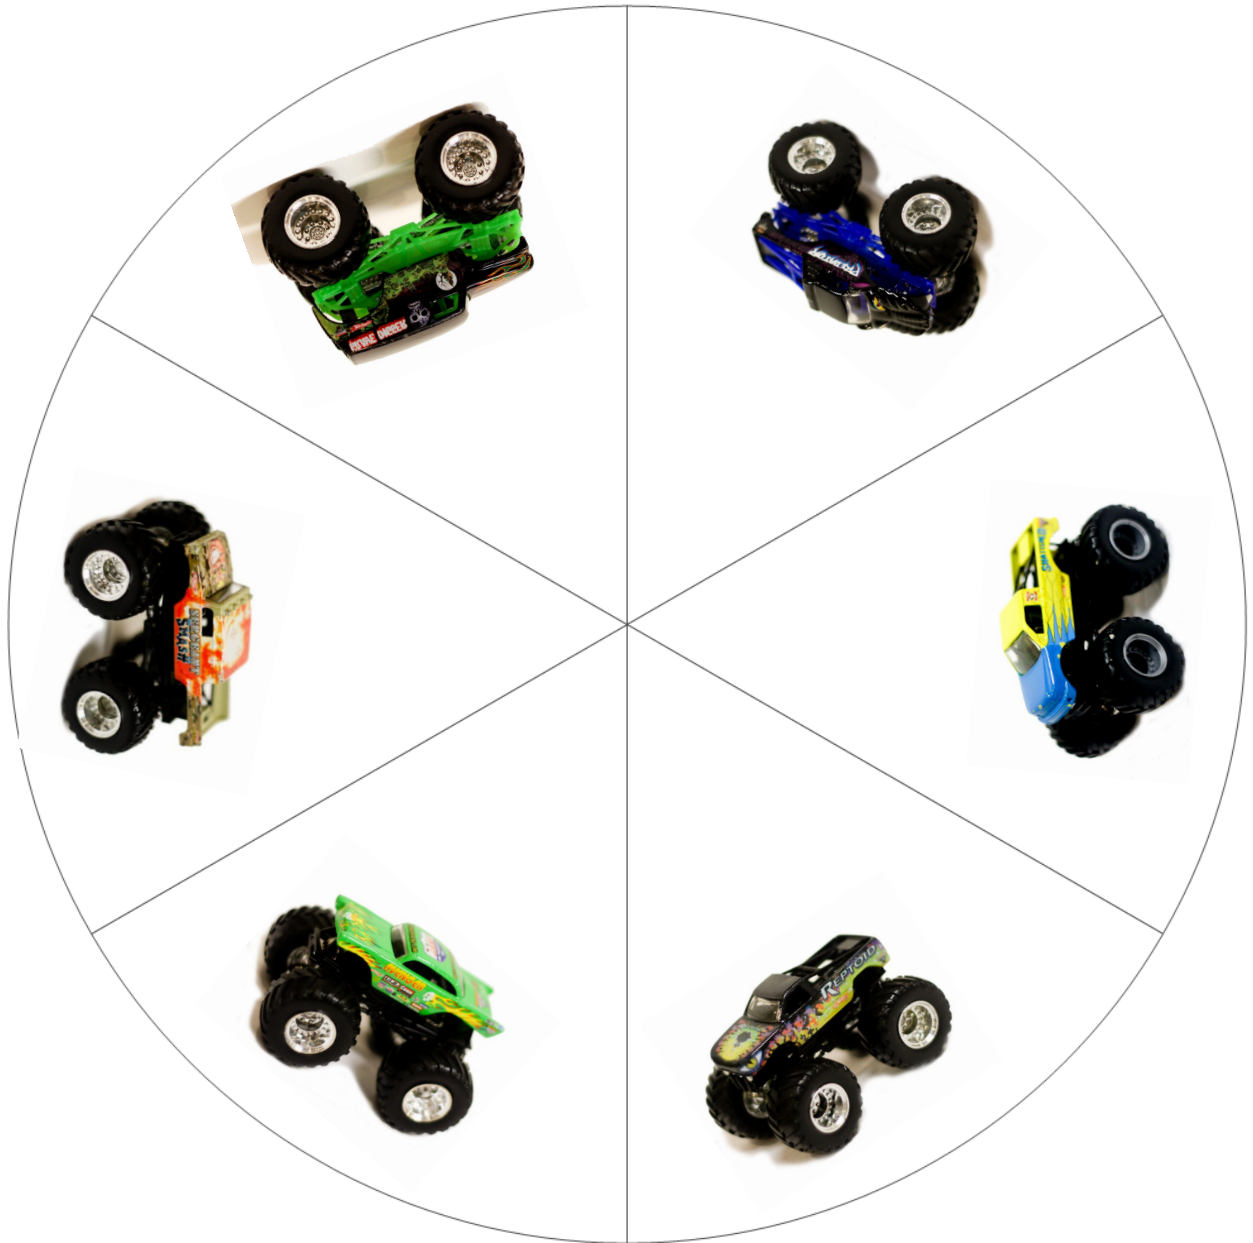

Monster Mutt

Cut out the dice template below, fold on the dotted lines and tape/glue together to make dice. Have your child roll the dice and then fill in a square of the graphic that was rolled until one of the colors reaches 10! If your child is younger or you want a shorter game, use the 1-5 page!

Use a spinner as an alternate to the cube if desired. I print mine on cardstock and laminate. Use a metal brad to poke a hole {you may need a scissors or knife to break through at first if laminated}. You can try to use the arrow, possibly with a bead/washer to help it spin. I prefer to rig up a paperclip hooked to a metal brad as the actual spinner. You just have to play around with it to see what will work for you!

Can you drive over the cars?

Cut out and tape together the two strips to make 1 long patterning board. Use the images on the previous to work on different patterns with your child!

Color Matching

Use the cards on the next page to play a matching game and also to work on color words! Have your child find the color in each image before playing a memory game!

Can you find these words in the story?

it	was	a	pretty
and	the	were	day
getting	for	ready	show
up	with	soon	would
be	time	filling	

It was a pretty day and the monster

trucks were getting ready for the

Monster Jam show. Grave Digger and

Monster Mutt were filling up with gas.

Avenger and Brutus were resting.

Soon it would be time for the show!

Which one is different?

Monster Truck

Monster Truck, Monster Truck
Oh so big and loud!

Monster Truck, Monster Truck,
driving all around!

Monster Truck, Monster Truck,
driving in the mud.

Monster Truck, Monster Truck,
landing with a thud!

Have I not commanded you?

Be strong and
courageous.

Do not be terrified; do not be
discouraged, for the LORD
your God will be with you
wherever you go.

Joshua 1:9

1	2	3	4	5
6	7	8	9	10

Print this page on cardstock and cut out images and numbers. Use the next page (mud) to have your child practice counting. You can give him a # and ask him to identify the # and place that # of trucks in the mud. Or you can put trucks in the mud and have your child count them and find the correct number. Be sure to let your child quiz you also!!

How Many Trucks in the Mud?

11	12	13	14	15
16	17	18	19	20

This page is to use if your child is counting higher than 10 and practicing basic addition. I included an addition board to use also! Print the other sheet of trucks and mud to have a complete set to work with!

How Many Trucks in the Mud?

$$\square + \square = \square$$

Read & Write the House...

Print the image/word cards and cut apart.

Tape these around the schoolroom or school area in your home.

Give your child a clipboard, and a pencil and have him/her go around and find the words and record them on either the tracing sheet (younger kids) or on the blank lines (older kids).

For fun, allow your child to use funny glasses, a [fun word pointer](#), and a special pen or pencil!. You could even slip the recording sheet into the [Crayola Dry Erase Center](#) and have your child use that to write on with a dry erase marker!
