Recovery Ministries

Miracle House

This is a house that is 2 doors down from our church. In the late summer of 2006 this house was raided by the police due to years of drug and prostitution problems. The man who was living there broke into the place after they had asked us to board it up and it was condemned. In the middle of fall of that year it caught fire and destroyed both floors. We petitioned the city to obtain the place to restore it and use it for recovery ministry. **In January of 2007 the city sold us the property for $1**. The first of many teams started coming in the beginning of March and we were 85% complete by the end of April to meet an insurance deadline. **We officially started holding meetings there by the end of January 2007**. Since then it has become a place in our neighborhood where many come seeking recovery. We hold many 12 step meetings there along with recovery Bible Studies and morning prayer times. **In a mere 3 years it has become a stable environment.**

History of the Miracle House

Drug house is raided…

Fire hits and CCC acquires the house in this status…

We are blessed with many work teams and financial donations to renovate the Miracle House…

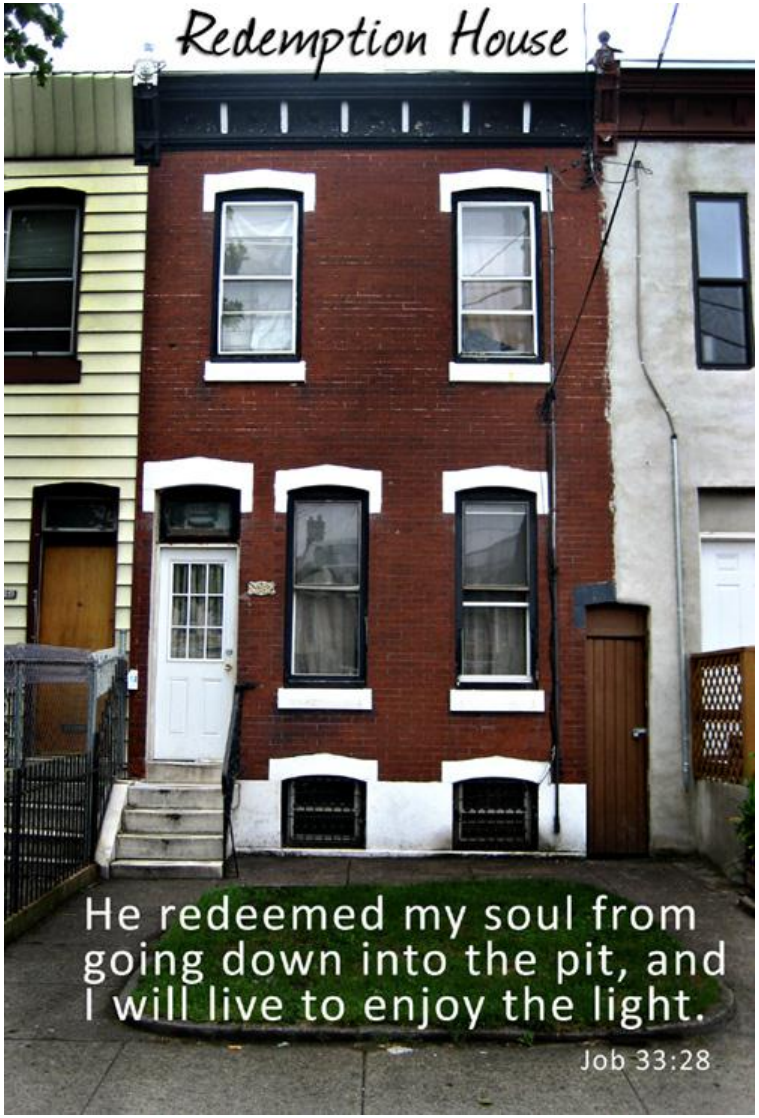

Within 6 months the Miracle House was completed and began to house AA/NA meetings, as well as Bible studies. 3 years later we are still going strong!

Redemption House

History of the Redemption House

Early after the start of our addictions ministry we noticed a need for housing for the people we worked with.

We started to pray and ask God for his direction in meeting this need. In the early spring of 2009 the house next door to our Miracle House went up for sheriff's sale.

With the help of many people we were able to raise $40,000 to purchase this house. Since then, God has supplied materials and helpers to help with the much needed renovations.

It still has a long way to go in the remodel but we are seeing it come in God's time. **We would love to have you come up and help us with this project.**

Future Plans For the Redemption House

- The Redemption House is in under current renovation to have four bedrooms, two baths, a full kitchen, living room, and a small basement apartment.

- It will house 8 people in program with 1 full time resident.

- Originally it was going to house men, however since we are bringing in a men's program, we are looking at possibly starting a women's program here.

House of Adonai

The House of Adonai is a current Christ centered drug and alcohol program located in our area. We are looking and praying about a partnership between them and Cornerstone Community Church.

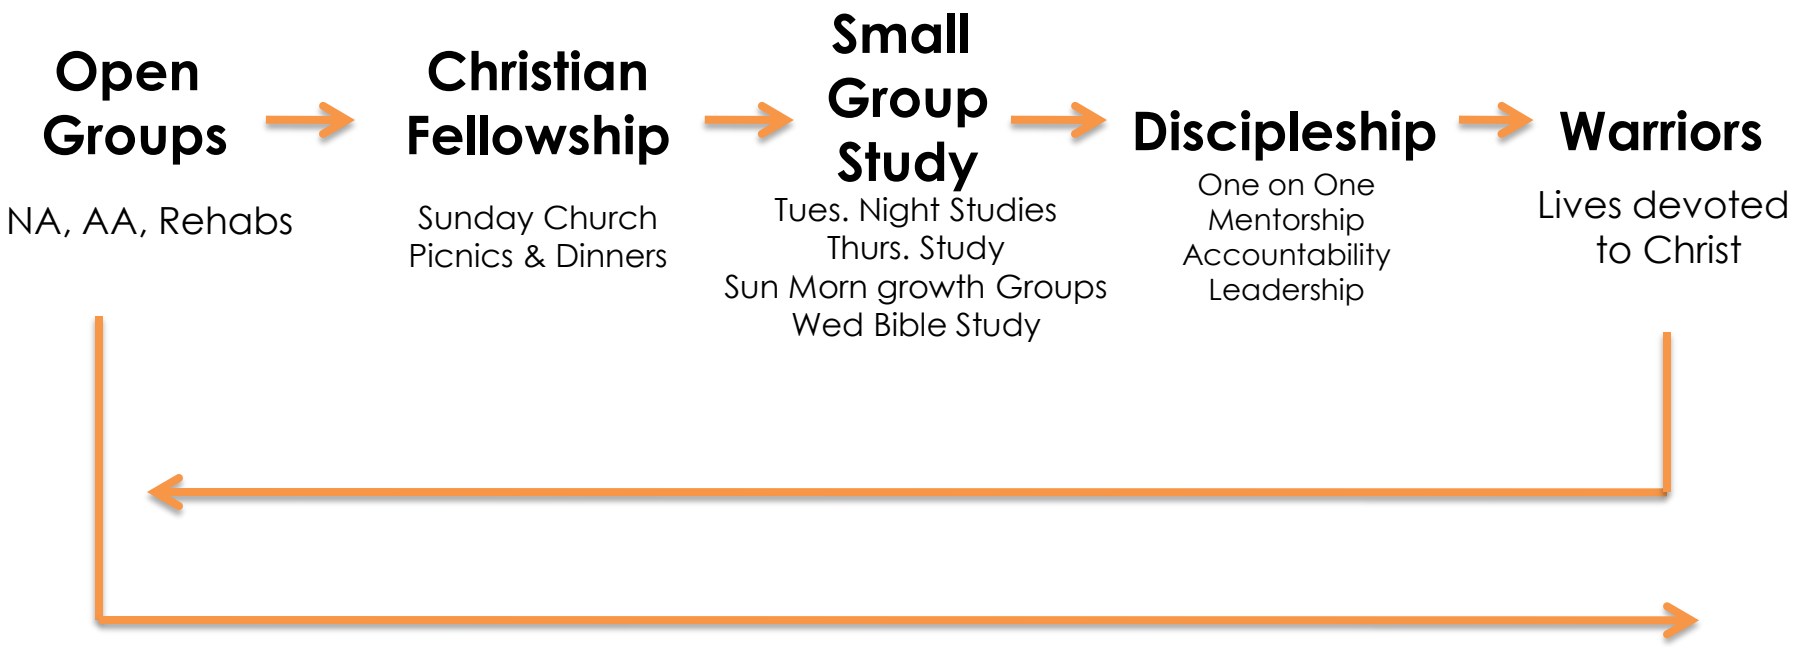

Future CCC Program

In the past 3 years we have seen a lot of struggles but nothing can compare to someone coming into a relationship with Jesus and claiming freedom from their addiction through Christ. We are in a process right now in possibly joining with an existing recovery program to bring them as part of Cornerstone Community Church.

The House of Adonai offers a full 3 phase, Christ centered recovery program right down the street from us. The director of this ministry is Bob Beck and we have been building a relationship for a while now. We have sent several people through his program and have really liked how we've seen everything run. They have been praying to be connected to a local church and also to become fully detached from government funding. We have been praying for a program and people to run it. As we sat down and laid everything out the two ministries actually fit very well together.

We are praying and seeking possibly in setting up a new non-profit to bring Cornerstone's recovery program, the House of Adonai, and Cornerstone's thrift store (and other work opportunities) under one title. All of these would work together to support one another. Through the years we have run and done much construction on all of our existing buildings and other congregational houses. In our neighborhood there are many abandoned homes that are relatively easily accessible. A dream of ours has been to make affordable housing for people in our church. We believe that this would be an awesome job training skill to teach and to be able to offer a truly full holistic approach to our recovery program.

Our Road to 300 Warriors in CCC Recovery Ministry

In 2009 our senior pastor launched an idea of praying for God to raise up 300 warriors out of our congregation. The above chart was made to show how the recovery ministry fits into that goal. It charts out a forward progression no matter where someone were to come in at. As people rise to be warriors they in turn go and walk with others on their path to being warriors for God.
